

B-3160 - B-3168
202-228 Warren Ave. (North side)
Baltimore, Md.
Private access

1852-1876

The three story, two and three bay wide brick houses lining this side of Warren Ave. were built for a middle class market and are much larger and more commodious than the average two story plus attic type of house built for nearby working class tenants. 202-220 Warren Ave. were all originally built with gable roofs but most have since been remodeled and now have shed roofs with bracketed cornices. 222-228 Warren Ave. were built in the 1870's in the currently fashionable Italianate style, with shed roofs and bracketed cornices. Each of these large, expensive houses is three bays wide and has a marble-faced basement. The first floor areas of 826-828 Warren Ave. now serve as an antique shop.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This pair of three story, two bay brick houses with gable roofs represent the type of house that originally extended along this side of Warren Ave. Unfortunately, the facade of 208 Warren Ave. has been re-faced with new brickwork, and a new bay window has been added to the first floor of 208 Warren Ave., thus drastically changing the original appearance of the buildings.

The houses are three stories in height, 15' wide, and occupy lots about 96' deep. Each house has a three story high, one bay wide and deep stair hall extension which connects the main structure to a two story high, five bay deep rear addition. At 208 Warren Ave., a modern two story addition has been added to the eastern side of the rear addition, thus filling in the courtyard that once existed between the two houses. The houses are constructed in running bond but 208 Warren Ave. has new brick work on the facade. Each house has a double, hooded chimney located along its east end wall. No chimneys remain on the rear additions. A simple two-tiered brick cornice runs continuously across the facade.

The second and third floor window openings of 210 Warren Ave. (and 208 originally) have splayed brick lintels and stone sills. The first floor door and window openings have round arched lintels and stone sills. All of the openings at 208 Warren Ave. currently have vertical stretcher lintels and header sills. All of the window openings on both houses are filled with 1/1 sash. The round arched first floor window of 210 Warren Ave. originally had 1/1 lights, the upper pane of glass cut to fit the curve of the round arch. Recently, however, a projecting bay window was fitted into this space. The first floor window at 208 Warren Ave. was given a plain, rectangular shape when the facade was re-faced. In both houses the door are recessed. At 208 Warren Ave. there is a modern glass and panel door set beneath a transom area that has been filled in with siding. At 210 Warren Ave. a new, Mediterranean-style panel door has been set beneath the round-arched, single light transom. The entryway area has been faced with marble. The houses sit on fairly high basements, the entrances being reached by four marble steps at 208 Warren Ave. and three brick steps at 210 Warren Ave. Each house has a rectangular basement opening set beneath the first floor window.

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

~~This~~ This pair of gable-roofed houses is representative of the type of house built along this side of Warren Ave. and on nearby streets in Federal Hill in the 1850's to accomodate the rising number of middle-class residents in the area.

See under 202 Warren Ave. for further details.
